Water 4 Survival (A Wilderness Survival Topic Book 3) Paul Andrulis

The priorities of wilderness survival place finding a source of potable water as third on the list of immediate necessities. This book explains the various sources of water that a person is likely to encounter, what hazards may be associated with such a water source, and provide various techniques to render the water safe for human consumption.

Loaded with illustrations and information, Water 4 Survival aims to provide a complete toolkit of knowledge and information to provide the reader with a host of options for procuring water that is safe to drink in a wilderness survival situation using bushcraft techniques. It is designed around the wilderness survival concept, requiring a minimum of tools, supplies, and construction abilities.
