Human Diseases: A Systemic Approach (7th Edition) Mark Zelman Ph.D., Elaine Tompany, Jill Raymond, Paul Holdaway M.A, Mary Lou E. Mulvihill Ph.D.

This book presents the basic principles of human disease, organized by human organ system. It provides practical information for both health career and non-professional readers—unlike other books, which are generally too high level or specialized for this purpose. New to this edition are: new diagnostic tests and lab procedures; enhanced coverage in treatment and diagnostic sections in disorders to include common treatments and general pharm options; increased coverage of disease statistics, prevalencies, risk factors for diseases and conditions; addition of prevention and aging to Diseases at a Glance table at the end of each chapter; A new page will be added at the end of each chapter which walks the readers through the multimedia resources that are available for each chapter; and much more!
