## **37 Ways to Learn the Italian Language** Mr. Larry Aiello

### **How to Start Learning Italian?**

Looking to learn Italian but don't know where to start? Do you need a road map to get you started? Or perhaps you are frustrated in your attempts and feel like you are getting nowhere. It could be that you are not going about it correctly. Many people need to learn the correct methods or the proper approach in order to properly learn. In fact, most people require a combination of methods to get them over the hump.

Let's take the analogy of changing a flat tire. If you don't have a jack, then you probably won't get far. It does not matter how strong or intelligent you are. It does not matter how much money you have. The same holds true for language learning as well. Without the proper tools and techniques, you will not get very far.

### **How many ways can you learn Italian?**

There are probably over 100 methods that you can use to learn a language. But I've listed 37 of them - the ones that I think are the most effective, easiest and quickest ways to learn. We all learn differently: some of us are visual learners - some of us are auditory learners. I've been teaching Italian periodically for over 10 years and these are the methods and ways that I recommend to my students and to anyone else that wants to learn the Italian language. And these are the ways that have helped me reinforce and strengthen my own knowledge.

### **Do I have to spend a lot of money to learn a new language?**

This is a question I get asked often. You don't need to spend a fortune to learn Italian. There are 37 ways in the book and many of them can be done for free or very little cost.

The book is divided into three sections

- Free Ways to Learn Italian
- Relatively Inexpensive Ways to Learn Italian
- Ways to Learn Italian by Spending Money

This book will not teach you Italian per se. Instead, it will teach you the benefits, methods, approach and mindset. And these are not exclusive to Italian - they could be used for any other language as well such as Spanish, French, German, etc. Utilizing the proper methods, tools and techniques might be the proper push that you would need to propel you forward in your language learning. And you could be speaking Italian fluently and soon impress your family and friends!
