Flight Performance of Fixed And Rotary Wing Aircraft (AIAA Education) (Aiaa Education Series)

Antonio Filippone

"Calculation and optimization of flight performance is required to design or select new aircraft, efficiently operate existing aircraft, and upgrade aircraft. It provides critical data for aircraft certification, accident investigation, fleet management, flight regulations, and safety.

This book presents an unrivalled range of advanced flight performance models for both transport and military aircraft, including the unconventional ends of the envelopes.

- Unique coverage of fixed and rotary wing aircraft in a unified manner, including optimization, emissions control, and regulation.
- Ideal for students, aeronautical engineering capstone projects, and for widespread professional reference in the aerospace industry.
- Comprehensive coverage of computer-based solutions of aerospace engineering problems; the critical analysis of performance data; and case studies from real-world engineering experience.
- Supported by end of chapter exercises, an extensive instructor's manual, and downloadable flight performance modeling code.

Topics covered include the numerical solution of supersonic acceleration, transient roll, optimal climb of propeller aircraft, propeller performance, long-range flight with en route stop, fuel planning, zero-gravity flight in the atmosphere, VSTOL operations, ski jump from aircraft carrier, optimal flight paths at subsonic and supersonic speed, range-payload analysis of fixed and rotary wing aircraft, performance of tandem helicopters, lower-bound noise estimation, sonic boom, and more.

This book will be a valuable text for undergraduate and postgraduate students of aerospace engineering. It will also be an essential reference and resource for practicing aircraft engineers, aircraft operations managers and organizations handling air traffic control, flight and flying regulations, standards, safety, environment, and the complex financial aspects of flying aircraft.

Copublished with Butterworth-Heinemann. Outside the United States, Canada, and South America, order from Butterworth-Heinemann, United Kingdom, tel 44 1865 310 366 or fax 44 1865 310 898."

From reader reviews:

Sharon Hollars:

Reading a reserve tends to be new life style with this era globalization. With looking at you can get a lot of information that may give you benefit in your life. Together with book everyone in this world could share their idea. Ebooks can also inspire a lot of people. Lots of author can inspire their own reader with their story or perhaps their experience. Not only the storyline that share in the publications. But also they write about advantage about something that you need case in point. How to get the good score toefl, or how to teach your young ones, there are many kinds of book which exist now. The authors on earth always try to improve their proficiency in writing, they also doing some investigation before they write with their book. One of them is this Flight Performance of Fixed And Rotary Wing Aircraft (AIAA Education) (Aiaa Education Series).

Juan Palmer:

Reading can called head hangout, why? Because if you find yourself reading a book mainly book entitled Flight Performance of Fixed And Rotary Wing Aircraft (AIAA Education) (Aiaa Education Series) your brain will drift away trough every dimension, wandering in every aspect that maybe mysterious for but surely can become your mind friends. Imaging every single word written in a guide then become one web form conclusion and explanation in which maybe you never get just before. The Flight Performance of Fixed And Rotary Wing Aircraft (AIAA Education) (Aiaa Education Series) giving you one more experience more than blown away your thoughts but also giving you useful information for your better life in this particular era. So now let us teach you the relaxing pattern this is your body and mind are going to be pleased when you are finished examining it, like winning an activity. Do you want to try this extraordinary paying spare time activity?

Maude Porter:

This Flight Performance of Fixed And Rotary Wing Aircraft (AIAA Education) (Aiaa Education Series) is great book for you because the content that is certainly full of information for you who all always deal with world and still have to make decision every minute. This book reveal it info accurately using great manage word or we can state no rambling sentences inside it. So if you are read it hurriedly you can have whole facts in it. Doesn't mean it only gives you straight forward sentences but hard core information with wonderful delivering sentences. Having Flight Performance of Fixed And Rotary Wing Aircraft (AIAA Education) (Aiaa Education Series) in your hand like getting the world in your arm, info in it is not ridiculous a single. We can say that no reserve that offer you world within ten or fifteen moment right but this publication already do that. So , this can be good reading book. Heya Mr. and Mrs. occupied do you still doubt that will?

Starr Place:

You can get this Flight Performance of Fixed And Rotary Wing Aircraft (AIAA Education) (Aiaa Education Series) by browse the bookstore or Mall. Merely viewing or reviewing it might to be your solve trouble if

you get difficulties to your knowledge. Kinds of this book are various. Not only by simply written or printed but in addition can you enjoy this book through e-book. In the modern era just like now, you just looking by your local mobile phone and searching what their problem. Right now, choose your own personal ways to get more information about your guide. It is most important to arrange you to ultimately make your knowledge are still change. Let's try to choose correct ways for you.
