## On Being a Person: A Multidisciplinary Approach to Personality Theories

From the Introduction: "The approach of this text will be multidisciplinary: psychologists, philosophers, theologians, and ethicists grappling with what it means to be a person. This volume will not attempt to provide a comprehensive history of psychology but will instead focus on selected representatives of various paradigms of psychology: from the first systematic psychologist, Aristotle, through psychology's development as an empirical science, and to recent developments in family systems theory. It will especially emphasize a social-relational-spiritual view of the self: namely, human relations to God and to others are essential to humanity"
