If these old walls could talk, would you listen? When a house has a story to tell, historical events to relate and lives to share, it should be given a voice; especially when the house is French and possesses a certain “je ne sais quoi”. “Through These Doors: the Manoir at Bout L’Abbé” tells of the German occupation of Normandy during WWII and the scars left on their unwilling French hosts. A fragile coexistence between the factions struggling for control of Normandy is born, while internal conflicts between certain German officers and their Nazi leaders complicate the impossible relationship between a young French girl and the soldier she finds herself drawn to. It also speaks of Debra, the American woman who convinces her French husband to buy the manor house in the 1980’s. She finds herself listening to whispers of previous occupants and being accused of insanity because of it. Still, the house will not be silent and Debra submits to its dubious support as her stormy relationship unfolds.
