W. H. Auden

John Fuller

W. H. Auden John Fuller

This is an indispensable reference guide to the works of one of the most important poets of the twentieth century. W. H. Auden's writing is notoriously complex--full of puzzling allusions and shaped by influences as diverse as Old English poetry and Auden's own theory of psychosomatic illness. To help readers understand Auden's work, the poet and scholar John Fuller examines all of Auden's published poems, plays, and libretti, leaving out only some juvenilia. In unprecedented detail, he reviews the works' publishing history, paraphrases difficult passages, and explains allusions. He points out interesting variants (including material abandoned in drafts), identifies sources, looks at verse forms, and offers critical interpretations. Along the way, he presents a wealth of facts about Auden's works and life that are available in no other publication.

The book is a major revision of Fuller's critically acclaimed *Reader's Guide* to Auden, published in 1970. It contains more than twice the material of that earlier volume. Fuller organizes the book on the basis of the individual collections that Auden himself originally published, with sections of "uncollected" work interwoven. Clear, meticulously researched, and carefully designed for ease of use, it is an essential guide for anyone interested in Auden's remarkable and sometimes elusive writing.
