Offender Reentry: Rethinking Criminology and Criminal Justice Matthew S Crow, John Ortiz Smykla
An Innovative New Text That Addresses a Critical Issue Nearly 2,000 people are released from prison every day in the United States, many of whom face significant barriers to re-entry into the civilian population. Within three years, two-thirds of them will be rearrested, and nearly half will return to prison for a new crime or parole violation. *Offender Reentry: Rethinking Criminology and Criminal Justice* is the first text of its kind to address this major issue in criminology and criminal justice. Bringing together cutting-edge and never-before-published research, and authored by the most critically recognized experts in the field, this text offers students extraordinary insight into the experiences of both offenders in reentry and the practitioners who work within the legal system. Real-world stories from criminal justice professionals and offenders themselves are integrated with up-to-the minute research and thought-provoking analysis. Student-oriented pedagogical features, including critical-thinking and discussion questions for every chapter, push students to engage deeply with the text and synthesize their own innovative solutions to contemporary problems. The text addresses all of the societal factors that affect offender reentry, as well as the political and economic effects on the community and issues of public safety. Ideally suited for upper-level undergraduate and graduate courses in criminal justice and criminology, *Offender Reentry* is an invaluable new addition to the field.
