Playing for Real: A Text on Game Theory Ken Binmore

Ken Binmore's previous game theory textbook, *Fun and Games* (D.C. Heath, 1991), carved out a significant niche in the advanced undergraduate market; it was intellectually serious and more up-to-date than its competitors, but also accessibly written. Its central thesis was that game theory allows us to understand many kinds of interactions between people, a point that Binmore amply demonstrated through a rich range of examples and applications. This replacement for the now out-of-date 1991 textbook retains the entertaining examples, but changes the organization to match how game theory courses are actually taught, making *Playing for Real* a more versatile text that almost all possible course designs will find easier to use, with less jumping about than before. In addition, the problem sections, already used as a reference by many teachers, have become even more clever and varied, without becoming too technical. *Playing for Real* will sell into advanced undergraduate courses in game theory, primarily those in economics, but also courses in the social sciences, and serve as a reference for economists.

From reader reviews:

Laura Clark:

As people who live in the actual modest era should be change about what going on or information even knowledge to make these people keep up with the era that is certainly always change and move forward. Some of you maybe will update themselves by looking at books. It is a good choice for you personally but the problems coming to a person is you don't know which one you should start with. This Playing for Real: A Text on Game Theory is our recommendation to make you keep up with the world. Why, as this book serves what you want and want in this era.

Juanita Stoneman:

Reading a publication can be one of a lot of activity that everyone in the world really likes. Do you like reading book therefore. There are a lot of reasons why people like it. First reading a e-book will give you a lot of new data. When you read a reserve you will get new information simply because book is one of various ways to share the information as well as their idea. Second, reading a book will make you actually more imaginative. When you looking at a book especially hype book the author will bring someone to imagine the story how the people do it anything. Third, it is possible to share your knowledge to others. When you read this Playing for Real: A Text on Game Theory, you could tells your family, friends along with soon about yours book. Your knowledge can inspire the mediocre, make them reading a e-book.

Evelyn Ross:

This Playing for Real: A Text on Game Theory is fresh way for you who has curiosity to look for some information since it relief your hunger info. Getting deeper you onto it getting knowledge more you know or else you who still having little bit of digest in reading this Playing for Real: A Text on Game Theory can be the light food for you because the information inside this particular book is easy to get by anyone. These books produce itself in the form and that is reachable by anyone, yep I mean in the e-book web form. People who think that in e-book form make them feel drowsy even dizzy this book is the answer. So you cannot find any in reading a e-book especially this one. You can find actually looking for. It should be here for you actually. So , don't miss that! Just read this e-book kind for your better life as well as knowledge.

Carmen Dana:

As a pupil exactly feel bored to be able to reading. If their teacher asked them to go to the library in order to make summary for some book, they are complained. Just minor students that has reading's heart or real their leisure activity. They just do what the educator want, like asked to the library. They go to there but nothing reading very seriously. Any students feel that studying is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this Playing for Real: A Text on Game Theory can make you really feel more interested to read.
