Cultural Anthropology: A Perspective on the Human Condition Emily A. Schultz, Robert H. Lavenda
Cultural Anthropology: A Perspective on the Human Condition is an introductory cultural anthropology text that encourages students to think critically about culture and to view the world in new ways. The authors incorporate cutting-edge theory into solid coverage of traditional topics and pay special attention to issues of power and inequality in the contemporary world, including gender inequalities, racism, ethnic discrimination, nationalism, caste, and class.

Covering the material in fourteen chapters, *Cultural Anthropology* fits well into a semester-long introductory course structure. "In Their Own Words" commentaries expose students to alternative perspectives from non-anthropologists and indigenous peoples, and "EthnoProfile" boxes provide maps and ethnographic summaries of each society discussed at length in the text. The book also features many pedagogical aids, including a glossary; chapter summaries, review questions, and key terms at chapter ends; and annotated suggestions for further reading. An **Instructor's Manual** and **Computerized Test Bank** and a **Companion Website** at www.oup.com/us/schultz provide additional helpful resources, including a student guide with extensive study skill tips and chapter review tests.
