Elsevier's Dictionary of Containers and Dangerous Goods: In English, French and Spanish **approx. 6,000 terms** L.J. Zilberberg

The dictionary will contain terms related to containers and dangerous goods, medical terms in relation to accidents involving dangerous goods, chemicals most frequently involved in accidents, segregation terms and groups, relementation of dangerous goods, conventions, codes and directives, organisations and acronyms. This dictionary will concentrate mainly on the technical vocabulary relating to containeri-sation and the transport of hazardous and noxious substances as it would appear that, that particular sector is rather poorly documented.
