Maggots, Murder, and Men: Memories and Reflections of a Forensic Entomologist

Zakaria Erzinclioglu

Maggots, Murder, and Men: Memories and Reflections of a Forensic Entomologist Zakaria Erzinclioglu

The science of forensic entomology-the application of insect biology to the investigation of crime-is extremely specialized, combining as it does an expert knowledge of entomology with keen powers of observation and deduction. Dr. Erzinclioglu has been a practitioner for over twenty-five years and has been involved in a great number of investigations, including some recent high-profile cases, where his evidence has been critical to the outcome.

A great admirer of Sherlock Holmes, Dr. Erzinclioglu compares his own techniques with those of his fictional hero, and takes the reader behind the often gruesome but deeply fascinating scenes of a murder investigation. This absorbing book ranges over cases from history, prehistory and mythology to the present day and is as gripping and readable as a good thriller.
