From reader reviews:

Melanie Finnegan:

The book Advanced mechanical systems sliding mode variable structure control: design. analysis and MATLAB simulation can give more knowledge and also the precise product information about everything you want. Exactly why must we leave a very important thing like a book Advanced mechanical systems sliding mode variable structure control: design. analysis and MATLAB simulation? Several of you have a different opinion about publication. But one aim this book can give many facts for us. It is absolutely proper. Right now, try to closer with the book. Knowledge or facts that you take for that, you may give for each other; you are able to share all of these.
