It replaces the Adam Cain book that was due out the middle of February and addresses many of the weaknesses evident in the first edition. (*For readers who have already bought the first edition, this new version is available for **FREE** download at Manage Your Devices and Content within your Amazon.com account.*)

And now...

From international bestselling science fiction author **T.R. Harris** ... here is **BOOK #9** in his Epic Saga of **Human Superiority** throughout the galaxy:

The Human Chronicles Saga - *The Masters of War* (Expanded Edition)

Adam Cain is an Alien with an Attitude...

At long last, the space opera adventures of Adam Cain and his Human Supermen continue.

This is Book #9 in *The Human Chronicles Saga* and presents our heroes with a whole new set of challenges as large as the galaxy itself. *The Master of War* is classic Adam Cain, full of thrilling chases across exotic alien landscapes, through spectacular stellar environments and fights against a whole new menagerie of alien creatures. There's an abundance of street-wise humor, plot twists, and fantastic victories that will have you laughing and fist-pumping from beginning to The End.

The adventure continues in the on-going epic saga of **The Human Chronicles** where **Humans are the Supermen** of the galaxy. It's not easy being the toughest guys on the block, especially when all the aliens we encounter must be constantly reminded: ***You Don't Mess The Humans!***

And now in...

The Masters of War

Adam Cain has pursued his nemesis **Nigel McCarthy** to the Milky Way's sister galaxy--The Large Magellanic Cloud--using the revolutionary technology of the concentrated-array gravity-drive. This is virgin territory for the Humans--an entire galaxy that knows nothing of the special abilities of the people from Earth.

Adam's troubles begin with his very first planetfall in this new galaxy, when a coalition of aliens band together to steal Adam's starship--*The Pegasus*--so they can learn the secrets of his exotic gravity drive. Without his ship, Adam can't complete his mission--that of eliminating the evil Nigel McCarthy once and for

all. So it's no-holes-barred action as Adam does what it takes to get his ship back, leaving a trail of lasting impressions behind him as only Adam Cain can do. Let's just say, the name of Adam Cain will never be forgotten, even in this second galaxy.

Yet Adam's mission is further complicated when another one of his old enemies shows up--the former leader of the Expansion Kroekus of Silea. The alien has come to The Cloud to fulfill his desire for power and control in a galaxy that's defenseless against the forces from the Milky Way. It's a study in political intrigue, tactics and strategies, and how an entire galaxy can be thrust into war by a few individuals with universal-size ambitions.

In an epic new conclusion, great fleets from two galaxies meet in the largest space battle to ever take place, while Adam and Nigel clash on their own field of battle to settle the score man-to-man. It's a finale you won't want to miss.

The Human Chronicles Saga is a MUST-READ for all fans of pure science fiction. Pick up the entire series today ... and find out why this thrill-a-minute collection of space opera adventures has become one of the bestselling sci-fi series on Amazon over the past three years.
