The big questions. Is there a God? Is there meaning and purpose to life? What happens after our physical death? Why are religions that claim to access Truth often in violent conflict with each other? If there is a God, why is there so much suffering and evil? Drawing on over forty years of personal transcendent experiences together with studies in spirituality, psychology and theology, the author considers the foundations of spiritual experience, belief and practice. In the process, religious and spiritual beliefs are categorized, basic conceptions about spirituality and knowledge are considered, spiritual paths are described, the role of morality and gender in spirituality is touched upon, and the nature of existence and experience is contemplated. Does 'Inner Spirituality' offer real answers to the big questions or are such adepts mistaken? This second edition outlines a 'Spiritual Matrix'. The main text has been grammatically revised throughout and an index has been added for easy reference.
