MARCHING TOWARD A Single Payer With Politicians Regulating Your Health Care M.D. Vincent W. Cangelo

A collection of my writings, approximately 100 articles, most of which were published in varied journals, magazines and newspapers throughout the United States that spoke to, described, analyzed and criticized various efforts both private and government sponsored that were designed to reform health care delivery in the United States. In these articles I express my opinion, after 40 years in the private practice of Medicine, supported by years of teaching as a Professor of Health and Medical Sciences at the University of California at Berkeley and San Francisco, together with personal visits, to nearly 20 nations throughout the world including most of Europe, Japan, Russia and China. in order to evaluate the health care delivery system offered in those nations as compared to ours.
