By George Webster, Ph.D., VINE VOICE on December 15, 2009 Format: Hardcover Vine Customer Review of Free Product ( What's this? ) Tami Hoag gives us an entertaining and thought-provoking story in this smoothly-written book. It is 1985, and we are in a small, quiet town in California. There, we meet four children in Anne Navarre's fifth-grade class. Dennis is a foul-mouthed bully. Roach is his toady. Tommy is bright and well-behaved. Wendy is smart and cool. She and Tommy are best friends. Their lives change forever one afternoon when they cut through a park on the way home from school. Tommy stumbles and falls into a depression and comes face to face with a dead woman - obviously a victim of a horrible murder. Terrified, Roach runs away. Wendy and Tommy are paralyzed with fright. Dennis thinks it is all pretty cool. We see the huge effects the event has on the children and on their very different families. Detective Tony Mendez notes that the victim was rendered deaf by the murderer, and her eyes and mouth were glued shut, so she was helpless before being murdered by a peculiar pattern of stab wounds. A victim in another county died similarly, and Mendez learns that another young woman is missing. It looks like a serial killer. He calls for help from the FBI, and it comes in the form of FBI Profiler Vince Leone. Together, they set out to track down the killer, while matters become steadily more-frightening. If you can't identify the serial killer immediately, you should turn in your junior detective badge, but the identity is not obvious to the detectives until we reach a breathless climax late in the story. It is a tale that is well worth reading. ( Amazon review)
