Religion, Race, and the Making of Confederate Kentucky, 1830-1880 (Cambridge Studies on the American South) Luke E. Harlow

This book sheds new light on the role of religion in the nineteenth-century slavery debates. In it, Luke E. Harlow argues that ongoing conflict over the meaning of Christian "orthodoxy" constrained the political and cultural horizons available for defenders and opponents of American slavery. The central locus of these debates was Kentucky, a border slave state with a long-standing antislavery presence. Although white Kentuckians famously cast themselves as moderates in the period and remained with the Union during the Civil War, their religious values showed no moderation on the slavery question. When the war ultimately brought emancipation, white Kentuckians found themselves in lockstep with the rest of the Confederate South. Racist religion thus paved the way for the making of Kentucky's Confederate memory of the war, as well as a deeply entrenched white Democratic Party in the state.
