The Story of Apollo 11 First Man on the Moon (a Cornerstones of Freedom book) R. Conrad Stein

Written especially for children and young adults, the cover of this informational book features NASA Astronauts Neil Armstrong, Michael Collins and Edwin "Buzz" E. Aldrin, Jr.....Apollo 11 was the spaceflight that landed the first humans, Americans Neil Armstrong and Buzz Aldrin, on the Moon on July 20, 1969. Armstrong became the "first to step onto the lunar surface" 6 hours later on July 21. Armstrong spent about two and a half hours outside the spacecraft, Aldrin slightly less; and together they collected 47.5 pounds (21.5 kg) of lunar material for return to Earth. A third member of the mission, Michael Collins, piloted the command spacecraft alone in lunar orbit until Armstrong and Aldrin returned to it for the trip back to Earth. Launched by a Saturn V rocket from Kennedy Space Center in Merritt Island, Florida on July 16, Apollo 11 was the fifth manned mission of NASA's Apollo program. The Apollo spacecraft had three parts: a Command Module with a cabin for the three astronauts which was the only part which landed back on Earth; a Service Module which supported the Command Module with propulsion, electrical power, oxygen and water; and Module for landing on the Moon. - Wikipedia. Illustrated throughout.
